Hiring Team
RedMPS

Dear RedMPS Recruitment Team,

I am writing to express my keen interest in the IT Graduate Programme for 2026, as advertised on your LinkedIn page. I am currently in the final stage of my Bachelor of Science in Information Technology at North West University, with my final examination on 31 October 2025. The opportunity to innovate and make a mark in the tech industry while developing skills in areas like Cyber Security, Database Administration, and Software Development is a perfect match for my career aspirations.

As a proactive and dynamic student, I have built a strong academic record and am committed to the continuous learning and collaborative environment you champion. I am particularly drawn to RedMPS's emphasis on pushing limits and achieving shared success. I am confident that my foundational knowledge, combined with my dedication to delivering outstanding results, would make me a valuable asset to your organization.

As requested, I have attached my CV, current academic transcript, and a copy of my Identity Document. I am available to start in November 2025 and am very excited about the possibility of growing my skills with RedMPS.

Thank you for your time and consideration.

Kind regards,
Sphesihle Sikhosana
